For a clean, safe and healthy environment

CID LINES[®]
Believe in hygiene!

CID LINES is the manufacturer and supplier of a complete range of fine cleaning, caring and disinfecting products for the transport, food and agricultural industries. Specialized chemists and engineers work in our professional laboratories for a continuous improvement of our products, tailor-made to your specific needs in hygiene. Therefore, the strictest norms for quality control - like ISO 9001:2000 and a GMP-Pharma certified production - are applied.

Kenolux is a complete range of cleaning and disinfecting products by CID LINES to guarantee a safe and hygienic food processing in the professional kitchen. With Kenolux we not only offer a range of products for the professional kitchen (including products for industrial dishwashers) but a complete approach to cleaning and disinfecting kitchens and industrial kitchens!
